

## REMARKS

Applicants thank the Examiner for indicating claims 1, 2, 4, 9-11, 38, 39, 42-44 allowable. By this Amendment, the specification and drawings are amended. Applicants respectfully request entry of these amendments.

The Notice of Allowance objects to the specification for referencing an improperly labeled Figure. By this Response, the specification is amended to correct this informality. That is, the specification is amended to recite FIG. 3B instead of FIG. 3. Applicants are only amending the drawings to satisfy the Examiner's objection to the drawings and no new matter has been added. Thus, Applicants respectfully request that the objection to the specification be withdrawn.

The Notice of Allowance objects to FIG. 3 because the drawings contain a FIG. 3A and, thus, FIG. 3 should be labeled FIG. 3B. By this Response, a replacement sheet is submitted that corrects this informality. Applicants are only amending the specification to satisfy the Examiner's objection to the specification and no new matter has been added. Thus, Applicants respectfully request that the objection to the drawings be withdrawn.

The Examiner is invited to call the undersigned at the below-listed telephone number if the Examiner believes that a call will expedite entry of this amendment and passing the application to issue.

Respectfully submitted,
